The board and the town administrator read and discussed all the proposals. The discount noted on the Vision Proposal for 50% off the program update was discussed. It was also noted that Municipal Resources Inc have been hired by the town to review the new values. If they conduct the revaluation, this cost would be absorbed.

After much discussion and comparing costs of each, the following motion was made:

The motion was made by Bryan Clark to accept the bid Municipal Resources, Inc from Meredith, NH at a cost of $29,750 to preform the Statistical Revaluation for 2020. Jacques Belanger seconded the motion. Further discussion ensued.

The Capital reserve fund for the 2020 Revaluation at the present time is $82,601.64. At town meeting in 2019 the town voted to withdraw $50,000 from this fund to cover the Statistical Revaluation for 2020. The total cost with Utility Revaluation and the awarded bid comes to $49,750.

Vision Software Update: The Town Administrator stated that it was advised by Vision that the update of the Software be done before the new values for the 2020 revaluation are entered. This will eliminate double entries into the system. The total cost for the Vision Software Update will be $10,000. Line Comeau stated that the Board had at this time $4,54.72 left in their operating budget for 2019. She would have to check to see if there will be any outstanding invoices to be deducted from this amount. The Board asked her to check with Vision to see if the town could pay half ($5,000) now and the rest in 2020. Line Comeau will give them a call. She also suggested that the board meet with the Selectmen to see if they could overspend their budget this year, which would be another option. Mary LaValley agreed to meet with the Selectmen on Thursday evening, November 21, 2019, to discuss this.

It was also noted that the amount to be budgeted in the year 2020 for the Vision program maintenance and support was quoted at $6,496 for 2 to 5 users.
